

DANAE

PRESS KIT

SHORT BIO

DANAE is an indie project originally founded in Cali, Colombia.

Influenced by their funky, alternative and melancholic taste, founder Tim Gallego and his bandmates didn't take long until the first songs started to take shape, the first gigs started to be played and the first venues & festivals opened their doors for the newly formed Indie band.

Just a year after the project kicked off, Tim decided to embark on a journey that would enrich his perspective and soul; he moved to Europe - The place where *DANAE's* music should be released.

Today the Berlin-based project has released their first E.P. "nostalgia" and is preparing 3 acoustic songs to be released in between before the 2nd E.P. comes out, in 2023.

Live Frequenzwerk Records

LIVE, MUSIC & DEMOS
